# CLIENTS REVIEWS AND WELCOME MESSAGE

## What our client say

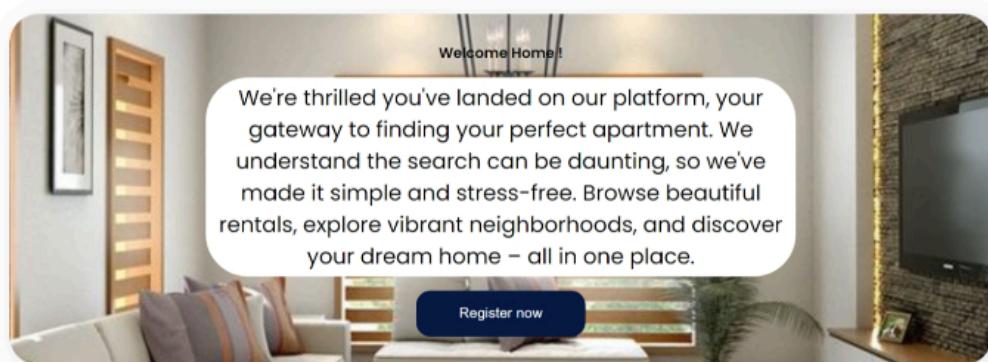

Team C apartment allows guests to leave reviews after their stay. Both hosts and guests can review each other, providing a two-way feedback system. Reviews include ratings on cleanliness, communication, check-in experience, accuracy, location, and value.

A robust review system where guests can rate and leave comments about their stay. Reviews cover aspects like staff, facilities, cleanliness, comfort, location, and value for money.

Rentals provides a platform for users to leave reviews for rental properties. Reviews can include details about the property itself, the neighborhood, and the landlord.

## FOOTER

With three skilled developers and two testers, our team employs full-stack Java to craft a cutting-edge online rental system. We're committed to delivering a seamless experience, ensuring satisfaction for users and landlords alike.
